

Wedding Flower Example Price List

Congratulations on your upcoming wedding! I'm excited to help you plan a wonderful celebration. If you're like most couples, you're scouring the Internet and researching vendors. You're probably even emailing lots of them to get price quotes.

What follows is a sampling of ideas and prices for your wedding flowers. This is meant to make the process simpler for you and me, both. If you are in the research stage, you don't need a full proposal yet. You just want ideas and a general idea of what those items will cost.

A few things to keep in mind:

***Everything listed here is adaptable to your flowers, colors, style, and season.**

***Flowers are highly seasonal and sensitive.** Many classic flowers, like roses and hydrangea, are available year round. But others, like peonies and dahlias, are available only certain months and exact dates vary from year to year based on weather and growing conditions. We'll discuss your requested flowers and plan accordingly.

***Wedding magazines highlight special and expensive flowers.** We've all fallen in love with bouquets we've seen highlighted in a magazine or on Pinterest. These pictures are carefully chosen to showcase a designer's best work – like fashion on a runway. Please understand that if you want "runway" fashion, it will cost "designer" prices. (Often because we have to buy more flowers than needed in order to get the "perfect" blooms.)

***Champagne taste on a beer budget?** Cliché, right? But often true. Sometimes the answer is a taste of champagne, and then filled out with good quality beer. What I mean is – maybe you want to splurge on your bouquet, but go more subtle and classic for your bridesmaids. Tall centerpieces are often more dramatic if you mix them with low ones, like 4 tall and 8 low. And don't forget the impact of candles!

Delivery, set up, and pick up.

Delivery is based on location. Standard fee includes 2 drop-offs – ceremony and reception locations, for example. Additional deliveries can be discussed. I strive to personally deliver the bouquets and be available to pin bouts and corsages as needed. But exact delivery schedules will be discussed.

All prices include set up. This means that I place the centerpieces, hang the aisle markers, scatter the rose petals. If you order flowers for an arch, I decorate it. If you order it from me, I set it up (based on site being ready). However, I cannot be responsible for setting up other items, unless we discuss in advance for an additional fee. If you do not have a day-of coordinator, please make sure someone is designated to set up your personal items.

You are responsible for removal and clean up. Most wedding sites require you to remove décor at the end of your event. For church ceremonies, sometimes altar flowers may be left for a following Sunday service. But most other flowers must be removed. Please confirm with your site coordinator.

Reception sites also want you to clean up after your event. If you rent vases or décor items from me, some venues will require that these be removed from the site that same day/night. Others will store them until the following day. We will discuss options and additional pick up fees, if applicable.
